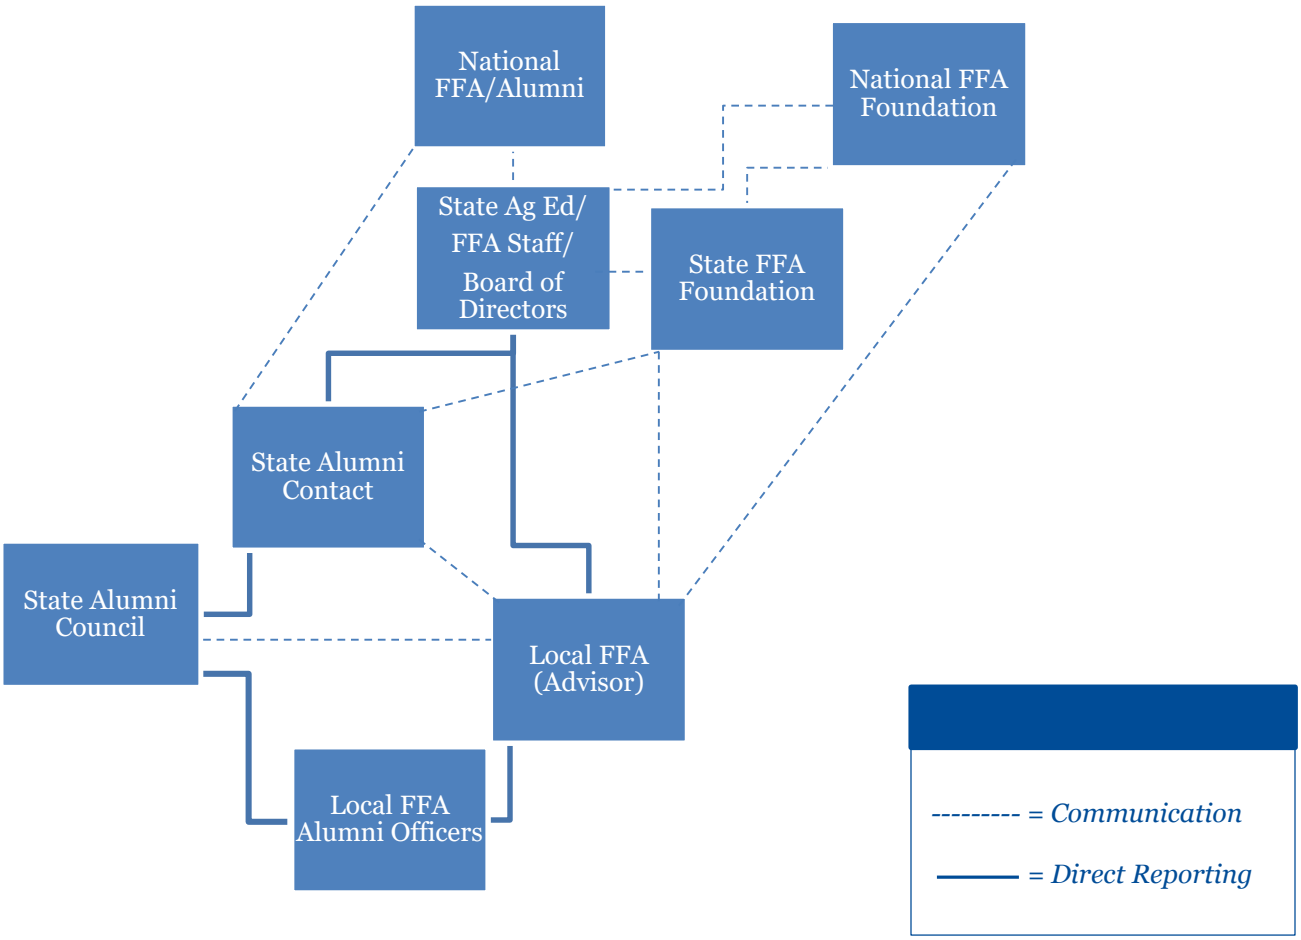
National FFA Alumni Association

# State FFA Alumni Structure

*Updated: 06/2016*

*Alumni membership is a type of membership in the National FFA Organization. This establishes Alumni as part of the National FFA Organization and not independent from the National FFA Organization. The diagram below is a suggested model to clarify the structure of state alumni associations.*


*It is also suggested that a working partnership document be created to further clarify the structural, reporting and working relationships of the state alumni association within the state FFA association's volunteerism and alumni support efforts. This document can also clarify how alumni is a type of membership at the state level, just like it is on the local and national levels.*
